

## RIGHT-OF-WAY PLANS CHECKLIST

1.	Section-line and section-corner locations identified.	
2.	Civil and congressional township information and county name shown.	
3.	All apparent property lines identified.	
4.	Names of last property owners of record shown.	
5.	Apparent existing R/W lines identified.	
6.	Property-corner monumentation identified, including iron pins, etc.	
7.	All proposed R/W and temporary R/W identified, including purposes for temporary R/W.	
8.	Centerline bearing identified.	
9.	R/W lines made to match up with those on abutting sheets or abutting projects.	
10.	R/W project number and code number shown on each sheet.	
11.	Approach table completed.	
12.	Cross sections not furnished.	
13.	Note, "All R/W described from Line "___", except as shown," appears on all Plan and Profile sheets.	
14.	If more than one survey line is shown, the line intended as the construction line is identified as such.	
15.	R/W Index labeled as such.	
16.	Signature block included, equivalent to the one shown on the INDOT R/W Plans Title Sheet frame.	
17.	Construction limits shown to be inside the R/W lines.	
18.	Drafting line styles used as shown in <i>IDM</i> Chapters Fourteen and Fifteen.	
19.	The R/W lines and names of property owners shown on Plat No. 1 match those shown on the Plan and Profile Sheets.	
20.	Equations and enough reference points included for old survey lines that original R/W was acquired from so that they can be re-established by the Real Estate Office.	
21.	Station and offset of the nearest building corner shown and labeled for each building within 25 m (75 ft) of the new R/W line.	
22.	All subdivision names, lot lines, and numbers identified.
